

Addendum # 5

Closing Date: Friday, March 15, 2024 4:00 PM

To

2024 Community Partner Awards

The following clarifications, amendments, additions, revisions, changes and modifications change the original proposal only in the amount and to the extent hereinafter specified in this Addendum.

The following are the answers to questions that were submitted:

1. Can an organization apply for more than one grant, provided the applications are for 2 separate projects?

Each organization should submit only one application. Funding is determined per organization and the maximum amount is \$24,999 per organization.

2. I am looking to confirm the following statement would not apply to working with a contractor (that we would propose contracting with in our project) to develop our application.

I hereby affirm that the contents of this Proposal have not been communicated by the Contractor or its agent to any person not an employee or agent of the City.

The Statement of Non-Collusion applies to the Contractor submitting the proposal.

3. I was wondering if the SHIP funds can do toward funding a moderating a group that connects non-English speakers to a verity of health, basic need, educational and economic opportunities. Our group increases public participation, resiliency, social connectedness and enhances wellbeing. From my understanding this would fall in line with a system change in community.

Please refer to the characteristics of policy, system, or environmental change (PSE) as listed in the [2024 CPA Program Definitions](#). After the Request for Proposals close date, City of Bloomington Public Health Division staff will review your application and budget to ensure it meets minimum requirements set by MDH. Staff may reach out to ask clarifying questions and to request additional programmatic or budget details.
